About “Encyclopedia of Artificial Intelligence” (The Japanese Society for Artificial Intelligence Edition) [Japanese only]

On Jul 10, 2017, Encyclopedia of Artificial Intelligence (The Japanese Society for Artificial Intelligence Edition) [Japanese only] is published by Kyoritsu Publishing. It has been 12 years since the last version was published, and the latest version covers the wide range of the latest topics and information on artificial intelligence. The chapter 12 of this encyclopedia is about biology and the pages about *in silico* drug discovery were written by Dr. Matsuzaki, the head of Drug Design lab.
