

Publication of the journal including an article written by
Hirotsugu KOMATSU, Takeshi TANAKA, Takao MATSUZAKI

March 20th, 2019 – Interprotein Corporation is pleased to announce that the journal “Medical Science Digest” including an article written by Hirotsugu KOMATSU (CSO), Takeshi TANAKA (General Manager, R&D Division), Takao MATSUZAKI (Scientific Adviser) has been published today.

“Medical Science Digest” is a monthly-published medical journal, whose editorial board members are listed below, and the representative is Prof. Tasuku HONJO (Kyoto University), a Nobel Prize winner, who recommended us to write the present article. It was published as a manuscript for the specific topic “The trend of researches for proteasome and relevant diseases” in the April issue, which was edited by Dr. Keiji TANAKA (Tokyo Metropolitan Institute of Medical Science). The article is including the essential points of Interprotein’s drug discovery approach for PPI and ubiquitin-proteasome targets. The information on the published article is as follows:

Publishing company: NEW SCIENCE Co., Ltd.
Journal name: Medical Science Digest (monthly)
Representative for editorial board members:
Prof. Tasuku HONJO (Kyoto University)
Board members: Prof. Hiromitsu NAKAUCHI (University of Tokyo)
Prof. Kazuhiko YAMAMOTO (University of Tokyo)
Prof. Hideyuki OKANO (Keio University)
Prof. Hiroyuki DAIDA (Juntendo University)
Prof. Yuji TAKETANI (University of Tokyo)
Prof. Takashi KADOWAKI (University of Tokyo)
Prof. Yutaka ITO (Keio University)
Prof. Nobutaka HATTORI (Juntendo University)
Prof. Mamoru WATANABE (Tokyo Medical and Dental University)
Prof. Toru NAKANO (Osaka University)
Topic: “The trend of researches for proteasome and relevant diseases”
Topic editor : Dr. Keiji TANAKA (Tokyo Metropolitan Institute of Medical Science)
Issue info.: Vol. 45 (4; April issue) page 225 - 231
Published date: March 20th, 2019
Title: “Efficient drug discovery approach for PPI and ubiquitin-
proteasome targets with unique *in silico* screening and AI-based
activity prediction technologies”
Language: English
Authors: Hirotsugu KOMATSU, Takeshi TANAKA, Takao MATSUZAKI
